Three days training programme on Backyard Poultry Management under NAARM - SCSP

Under NAARM-SCSP, KVK Yagantipalle conducted a three-days training course on backyard poultry management. Highlighted the following subjects: caring for chicks during their first four weeks in the nursery; managing feed and using non-conventional feed sources; diseases in poultry and how to prevent them; and their prevention along with Post-mortem examination of poultry for disease diagnosis. Carried out a demonstration of growing and feeding Azolla. The main guest at the concluding session, Dr. N. Balakrishnan, Principal Scientist, NAARM, encouraged female trainees to start raising backyard poultry as an alternative source of income. Published booklets on backyard poultry and distributed the trainees one month old rajashree chicks, azolla kits, and certificates.
